Bite and Bite anomalies

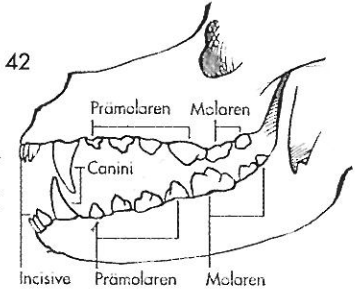

milk teeth of a pup appr.
8 weeks old + tooth
formula

3	1	3	3	1	3	above = 14
3	1	3	3	1	3	below = 14
						28

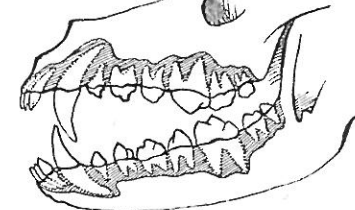

Teeth formula · full dentition 42

Description		Latin and German	
2	4	1	3
3	1	4	2
		above = 20	
3	4	1	3
3	1	4	2
		below = 22	
		42	

teeth with roots and their embedding into the jaw

normal position (Scissor)
of incisors

level bite · All six incisors
of the upper jaw bite
on the six incisors of the
lower jaw

Undershot: the six incisors of
the lower jaw are positioned
in such a way behind the
upper incisors so there is no
longer a scissors bite

Undershot: The six incisors
of the lower jaw are
positioned in front of the
incisors of the upper jaw.
